

EVERY MOMENT, EVERY MOUNTAIN, EVERY MILE

**There are days my heart feels heavy
and I struggle now and then,
But victory with Jesus is always sweet.
If I could go to the places I've already been
I would do it all over again.**

**I would face e-very moment that He's brought me through;
Climb each mountain I've already climbed.
Every step I have traveled He's been faithful and true,
So I'd walk them again by His side;
Every Moment, Every Mountain, Every Mile.**

**Many times it was a struggle
Trusting what I could not see,
But each time He worked all things for my good.
So I would walk by His side
Through each triumph and trial;
Every Moment, Every Mountain, Every Mile.**

(repeat chorus above and end with below)

**Every step I have traveled He's faithful and true,
So I'd walk them again by His side:
Every Moment, Every Mountain, Every Mile
Every Moment, Every Mountain,
Every Moment, Every Mountain, Every Mile.**
